

crimsafe / Ultimate Featuring 0.9mm mesh

Redefines security screens by offering superior strength, versatility and architectural engineering.

Take your home security to the next level with the superior strength, versatility and architectural styling of Crimsafe Ultimate.

This upgraded Crimsafe screen is not only superior - it can withstand up to 750 Joules of impact, far more than the five x 100 Joule impacts required to meet the industry standards.

Crimsafe Ultimate's incredible strength is achieved through uniquely engineered features, including Screw-Clamp™ technology that secures the 304 structural grade stainless steel mesh to the entire frame with a vice-like grip. Additionally, Crimsafe Ultimate utilises twice as many screws as Crimsafe Classic, concealed within the fastening system for greater stability and strength. At the same time, a wider, stronger frame improves rigidity and jemmy resistance against would-be intruders.

Crimsafe Ultimate security screens are available in the widest variety of applications to suit your home or lifestyle needs and come with a 10-year warranty for ultimate peace-of-mind.

The Crimsafe Ultimate Profile

304 structural-grade stainless steel mesh

Exclusive Screw-Clamp™ fastening system

0.9mm mesh

Withstands up to 750 Joules of impact*

10-year extended warranty

If it's not Crimsafe, it's not crim safe.

Why choose **crimsafe** / Ultimate

Can withstand up to 750 Joules of impact*	40% stronger than Crimsafe Classic	Wider, stronger door frame	10-year Warranty
3-point locking as standard	Widest range of residential or commercial applications	Blocks up to 53% of solar heat gain	Made in South Africa

Safety, security and so much more

When you invest in Crimsafe, you invest in the best protection for your home and family. In addition, many other benefits come with adding our screens to your home.

Fresh air & breezes

Enjoy the many benefits of fresh air and cool breezes flowing through your home without compromising on security.

Insect protection

Protect your family and home from all unwanted visitors. From flies and mozzies to burglars, intruders and monkeys.

Unhindered views

No need for unsightly bars and grilles. Crimsafe provides unrestricted views and a feeling of open space.

Energy efficiency

Crimsafe's Tensile Tuff® mesh blocks up to 53% of solar heat gain and 62% of UV rays, making your home more energy-efficient.

Bushfire protection

Crimsafe provides the highest level of protection from ember attack, radiant heat and the impact of burning debris on glass.

Storm protection

Crimsafe provides extra protection during a storm and is a strong barrier against hailstones and wind-borne debris.
